## ABOUT US

Nazdar SourceOne is the leading supplier of screen and digital printing equipment, inks and supplies. We maintain relationships with the world's foremost manufacturers, providing best-in-class technology and quality to specialty graphic printers in the United States, Mexico and Central America. With a network of 15 locations, we deliver localized inventory, superior customer service and expert technical support to the graphic, textile and industrial markets.

Nazdar SourceOne is dedicated to bringing our customers best-in-class service and quality products. We have partnered with the industry's top manufacturers that are on the forefront of technology. This allows us to confidently offer you innovative solutions that fit your business needs. We are proud to serve you.

## SOURCEONE MAKES SHOPPING ONLINE EASY

SourceOne's expanded website, [SourceOne.Nazdar.com](http://SourceOne.Nazdar.com), offers over 5,000 individual products from the industry's leading manufacturers, at competitive prices.

The website was built with the user in mind and features a large number of improvements including easy search and navigation, product filtering and an optimized layout for mobile devices.

Having a SourceOne online account means you'll never miss out on a great deal or the latest news. You will receive exclusive monthly offers on top rated, brand name products, get new product previews, stay on top of the latest industry news, access free trade show passes and personal product demos. Sign up today!

# OUR PARTNERS

## EQUIPMENT

Nazdar SourceOne is proud to offer textile screen and digital printing equipment from several of the top brands in the industry. Our equipment solutions include the fastest screen printing press in the industry, digital garment printers – large and small, digital printers for dye sublimation transfer printing, heat presses, pre-treat machines, dryers and much more. Nazdar SourceOne brings you the following top equipment brands:

EPSON®

Roland®

VIPER  
PRE-TREATMENT MACHINES

## INK

Nazdar SourceOne works closely with our textile ink supplier partners to bring our customers solutions to fit any ink challenge for any size business. With technologies that cover water-base, plastisol and silicone ink systems that include ready-for-use colors, bases and concentrates, color mixing and matching, and transfers – we provide a variety of solutions for various garment applications. We are proud to offer products from the following suppliers:

MAGNACOLOURS®  
IMAGINATION INK™

## SUPPLIES

It is our goal as the leading supplier to provide a full offering of screen supply products to help our customer's business succeed. We offer innovative products for stencil production, adhesives, direct emulsions, capillary films, cleaning and reclaiming products, fabrics, masking films, exposure test positives, as well as stretching, coating and cleaning equipment. With today's high-quality standards, Nazdar SourceOne is proud to offer you screen supplies from the following suppliers:

# FILM

## ImageStar E Film Positive

ImageStar E Film is a 5.3 mil instant dry clear film with a low UV-Dmin and a high Dmax. This film is a perfect choice for inkjet screen print positives and compatible with both pigment and dye based aqueous inks and comes on a 3" core.

Item No.	Specs	Size
ISECFP17100	17" x 100'	Roll
ISECFP24100	24" x 100'	Roll
ISECFP36100	36" x 100'	Roll
ISECFP44100	44" x 100'	Roll

## Epson Film

Epson films are high resolution 5.3 mil microporous films on a 3" core that are instant dry when used with Epson UltraChrome Inks.

Item No.	Specs	Size
EPSS450132	17" x 100'	Roll
EPSS450133	24" x 100'	Roll
EPSS450134	36" x 100'	Roll
EPSS450135	8.5" x 11"	Box of 100
EPSS450136	13" x 19"	Box of 100

## AccuFast and AccuJet Film from Chromaline Ikonics

AccuFast and AccuJet are high-quality photopositive films, universally receptive to both dye and pigment ink. AccuFast average 5 mil in thickness while AccuJet averages 4.9 mil thickness and comes on a 2" core.

Item No.	Specs	Size
ACCUFAST8X11B1	8.5" x 11"	Box of 100
ACCUFAST11X17B1	11" x 17"	Box of 100
ACCUFAST13X19B1	13" x 19"	Box of 100
ACCUFAST13X100	13" x 100'	Roll
ACCUFAST17X100	17" x 100'	Roll
ACCUFAST24X100	24" x 100'	Roll

### SEFAR PET 1500 Mesh

SEFAR® PET 1500 is the most comprehensive range of screen printing mesh for an efficient and reproducible stencil production. It meets all the requirements for detail reproduction and print run consistency and registration accuracy in multi-color printing. The special surface treatment improves adhesion, good wettability and good antistatic properties. These features allow a high-quality and efficient processing of all commercially available screen printing systems.

- Unsurpassed UV-light undercutting protection of yellow mesh
- Adhesion and preparation optimized mesh surface
- Reproducible mesh relaxation
- Good ink and paste release behavior
- Good antistatic behavior thanks to Sefar antistatic treatment
- Wide standard range of mesh counts/widths with high availability

LC33665092P070Y	LC3 709070 Durometer 3/8" x 2" x 144"	Yellow/White/Yellow

### Wood Handle Squeegees

Squeegees are comprised with polyurethane squeegee blades and hardwood in a no-bolt design and cut to any desired length.

Item No.	Specs	Color
SG2260	60 Durometer	Orange
SG2270	70 Durometer	Yellow
SG2280	80 Durometer	Blue

## ADHESIVES, TAPES & SPRAYS

### RTape 4350 Protek Pallet Tape

Pallet Protek™ Tape is a standard weight saturated smooth paper tape with heat resistant adhesive. Covering your pallet with Pallet Protek and spraying the paper tape instead of the pallet, press clean up time is simply a matter of removing and discarding the tape.

Item No.	Specs
RT435016X100	16" x 100 yd
RT435018X100	18" x 100 yd
RT435020X100	20" x 100 yd
RT435024X100	24" x 100 yd

### TEKMAR TB-10 ADHESIVE

TEKMAR™ TB-10 Adhesive is non-staining, long lasting and environmentally safe product. This non-hazardous, non-flammable adhesive, can be used safely in any sized shop allowing total OSHA compliance for the adhesive station.

Item No.	Size
TB1004	Gallon
TB1005	5 Gallon

### CCI TOP BOND Pallet Adhesive

CCI TOP BOND is high-quality water-based adhesive used to secure garments for printing and can be sprayed on belt printers.

Item No.	Size
TBA9LB	Gallon
TBA42LB	5 Gallon
TBA480LB	55 Gallon

## ADHESIVES, TAPES & SPRAYS

### Albatross Dri-Web Textile Spray Adhesive

Albatross® Dri-Web sprays in a cob web type pattern which yields a very strong tack. It is the fastest drying web adhesive on the market and will not transfer onto fabrics. It is perfect for both t-shirts and fleece.

Item No.	Size
ALB1175	11.75 oz.

### Albatross Brush-Tac Textile Pallet Adhesive

Albatross® Brush-Tac water-based pallet adhesive is formulated for brush or card on application. It is more viscous than standard water-based bulk adhesives for easier better controlled applications.

Item No.	Size
ALB1099	16 oz.
ALB1096	Gallon

### Camie 375 Screen Printers' Flash Cure Adhesive

Camie® 375 Screen Printers' Flash Cure Adhesive holds most textile products, including fleece garments and is a clear mist spray particularly suited for the rapid heat cycles encountered in the flash cure process.

Item No.	Size
CAM375	14 oz.

### Camie 380 Screen Printers' Adhesive

Camie® 380 Screen Printers' Adhesive is specifically designed as a pressure-sensitive pallet adhesive that does not stain. Offers quick tack, has low soak-in and will not wrinkle fine materials.

Item No.	Size
CAM380	14 oz.

### Camie 385 Webbing Screen Printers' Adhesive

Camie® 385 Webbing Screen Printers' Adhesive is a clear pressure-sensitive webbing adhesive that will not wrinkle the work while in use. Specifically designed for fleece and other high-density garments.

Item No.	Size
CAM385	12 oz.

### Camie 888 Silicone Release Agent & Lubricant

Camie® 888 Silicone Release Agent & Lubricant is a 3% viscosity silicone. Leaves a colorless, tenacious dry film when applied and is recommended for difficult release applications (rubber molding) as well as a lubricant for rubber or applications where high-friction may be encountered.

Item No.	Size
CAM888	13.5 oz.

# ADHESIVES, TAPES & SPRAYS

## Nazdar SourceOne Mist Pallet Spray Adhesive

Nazdar SourceOne Mist Pallet is a pallet adhesive ideal for textile screen printers. The pressure-sensitive formula makes it repositionable without losing its tack for a number of screen passes before an additional application is necessary.

Item No.	Size
NDS082	13 oz.

## Nazdar SourceOne Web Pallet Spray Adhesive

Nazdar SourceOne Web Pallet Spray Adhesive is a pallet adhesive ideal for textile screen printers. The pressure-sensitive formula makes it repositionable without losing its strength. It sprays on easily and evenly for screen print tacking.

Item No.	Size
NDS083	13 oz.

## Nazdar SourceOne Super Flash Textile Mist Spray Adhesive

Nazdar SourceOne Super Flash Spary Adhesive is ideal for flash curing. This high-quality industrial grade spray adhesive has excellent heat resistance. It remains tacky even when exposed repeatedly to the high temperature required to cure plastisol inks.

Item No.	Size
NDS084	14 oz.

## ADHESIVES, TAPES & SPRAYS

### ImageStar Split Tape

ImageStar Split Tape is a pressure sensitive tape for fast application in forming a seal between fabric and frame. Colored areas on the tape contain no adhesive to eliminate sticky adhesive residue from the edge of the frame. Save time and money – tape removes quickly and easily from the screen frame and leaves a clean frame edge. No release liner for quick application and resists most solvents used in ink removal.

Item No.	Specs
IMS84512	2" x 60 yd
IMS84513	3" x 60 yd
IMS84514	4" x 60 yd

### ImageStar Full Adhesive Tape

ImageStar Full Adhesive Tape is a full-adhesive screen blackout tape in a transparent white color designed to be used on the print side of the screen to block out open areas and where the mesh is attached to the frame. This tape is also thin enough to be used on the squeegee side without interfering with the squeegee mesh contact.

Item No.	Specs
IMS84513FA	3" x 60 yd
IMS84514FA	4" x 60 yd

## ADHESIVES, TAPES & SPRAYS

### PMI 260 Quick Rip

Hand-tearable with a blue non-adhesive edge providing a tab to lift PMI 260 Quick Rip Tape from the screen. Same adhesive and backing as Split Tape allowing for a clean removal. For taping the print side of screens as a block out tape.

Item No.	Specs
PMI22601CE	2" x 60 yd
PMI32601CE	3" x 60 yd

### PMI 451 Full Adhesive Tape

PMI 451 Full Adhesive Tape is used for taping further into the screen, taping the print side of screens as a block out tape and masking the inside of wood frames.

Item No.	Specs
PMI451FA2X60	2" x 60 yd

### PMI 3212 Blockout Tape

PMI 3212 Blockout Tape is white vinyl blockout tape can be used to block out areas of the screen not covered by emulsion and can be used on inside and the outside of the screen without damaging the emulsion.

Item No.	Specs
PMI3212X110	2" x 110 yd
PMI3213X110	3" x 110 yd

## ADHESIVES, TAPES & SPRAYS

### RTape Blue Blockout Tape

Solvent-resistant, self-wound, polyethylene blockout tape. RTape Blue Blockout is the ideal choice for wood frames to keep ink from getting between the frame and mesh. You spend less time on clean-up, because they peel off cleanly from the mesh without leaving adhesive residue.

Item No.	Specs
RT20002X36	2" x 36 yd
RT20003X36	3" x 36 yd
RT20004X36	4" x 36 yd

### Polyken Kendall 221 Tape

This strong gummed Kendall 221 cloth tape is recommended to prevent ink leakage along the border between the frame and the screen.

Item No.	Specs
221KENDALL	2" x 60 yd
221KENDALL3	3" x 60 yd
221KENDALL4	4" x 60 yd

### Albatross Citrus Screen Opener

Albatross® Citrus Screen Opener instantly opens clogged screens while still on press with a pleasant citrus smell. Dissolves most types of inks, fresh or old.

Item No.	Size
ALB1634	15 oz.

### Nazdar SourceOne Nonstop 90 Instant Screen Opener

A light spray on the dried-in inks without stopping the press opens the mesh after two or three squeegee passes. Nazdar SourceOne Nonstop 90 is effective on all screen printing inks and eliminates time-consuming cleaning stoppage.

Item No.	Size
NS90	15 oz.

### Nazdar B-535 Liquid Tape

B-535 Liquid Tape is a two package adhesive system which serves many purposes in screen making. This low-priced, versatile product can be used as a fast fabric-to-frame adhesive, an effective screen sealant and a permanent stencil blockout that greatly reduces screen preparation time. \*Requires catalyst C536.

Item No.	Description	Size
B53504	B535 Liquid Tape Primcoat Seal	Gallon
C53680Z	C536 Primecoat Cure Agent Dark	8 oz.

## ADHESIVES, TAPES & SPRAYS

### Frame Fast Adhesive

Frame Fast® 280 Adhesive is a low viscosity engineering grade adhesive formulated for mesh counts of 305 or finer. Specifically developed for bonding fabric to aluminum and steel frames and is ideal for any narrow profile metal frames.

Frame Fast® 290 Adhesive is a high viscosity engineering grade adhesive developed for coarse mesh counts of 260 or coarser. FrameFast 290 Adhesive can be used on aluminum, steel and wood or plastic insert strips used in self tensioning frames. This product exhibits extraordinary strength with a tensile strength of 3,500 psi.

\*Both require FrameFast 303 or 304A activator.

Item No.	Description	Size
FF28016	280 Adhesive	16 oz.
FF29016	290 Adhesive	16 oz.
FFA30304	303 Activator Non Aerosol	Gallon
FF304A11	304A Activator	11 oz.

### RhinoMite RMA 3500R Adhesive Red

RhinoMite™ RMA 3500R™ Adhesive Red systems offer high tensile strength, impact and solvent resistance. Both dry in approximately 10 to 15 minutes. Once mixed, they have a pot life of seven or more days. Each unit is shipped as a kit with catalyst.

Item No.	Description	Size
RMA3500R04	RhinoMite 3500R Adhesive Red	Gallon

## ADHESIVES, TAPES & SPRAYS

### KIWOBOND 1100 POWERGRIP

KIWOBOND® 1100 POWERGRIP is a fast drying, two-component screen adhesive for a highly chemical resistant bonding of screen meshes to frames made of aluminum, steel, wood and galvanized iron.

\*Requires the Kiwodur catalyst except for the sets which come with the catalyst.

Item No.	Description	Size
KW20370502	KIWOBOND 1100 PG 4.25KG ADH ON	EA
KW20777320	KIWODUR 1100 PG HARDNR 1KG ON	EA
KW20370980	KIWOBOND 1100PG SET PACK 500GR	EA

### KIWOBOND 1000 High Mesh Tension

KIWOBOND® 1000 High Mesh Tension (HMT) is a red, fast drying, two-component screen adhesive for a highly chemical resistant bonding of screen meshes to frames made of aluminum, steel, wood and galvanized iron.

\*Requires the Kiwodur catalyst except for the sets which come with the catalyst.

Item No.	Description	Size
KW20309502	KIWOBOND 1000HMT ADHSV 4.25KG	EA
KW20709320	KIWODUR 1000HMT HARDENER 1KG	EA
KW20309980	KIWOBOND 1000HMT SET 700GR	EA

## SCREEN PREPS

### ImageStar ProTex Mesh Prep 1:10 Concentrate

ImageStar ProTex Mesh Prep is a 1:10 concentrated liquid wetting agent and degreaser. It is used for preparing mesh with added adhesion promoter. It improves coating and resolution.

Item No.	Size
IMSPT1024OZ	4 oz.
IMSPT10203	Quart
IMSPT10204	Gallon

### ImageStar ProTex Mesh Prep with Abrader

ImageStar ProTex Mesh Prep with Abrader prepares new mesh for stencil making in a ready-to-use gel. Abrades and degreases with an added adhesion promoter that does not clog mesh openings.

Item No.	Size
IMSPT11003	Quart
IMSPT11004	Gallon

## SCREEN PREPS

### CCI "The Pink Stuff"

"The Pink Stuff" leaves the fabric free of oils, contaminants and residues which will ruin the emulsion coating. "The Pink Stuff" will reduce the incidence of "pin-holes" and "fish-eyes" when coating your screen with emulsion. Acts as a haze remover too!

Item No.	Size
CCTPS04	Gallon
CCTPS05	5 Gallon
CCTPS55	55 Gallon

### CCI NUTRALYZE Degreaser 1:20 Concentrate

Concentrated formula for degreasing and wetting all types of screen fabrics. When completely water rinsed, CCI NUTRALYZE Degreaser will leave fabrics free of silicones or other types of oils that tend to leave a film or slippery active surface.

Item No.	Size
NU04	Gallon
NU05	5 Gallon
NU55	55 Gallon

### KIWO DEGREASER 1:20 Concentrate

KIWO DEGREASER 1:20 concentrate is a highly efficient cleaning and degreasing concentrate for printing screens. It is suitable for all mesh types and prevents pinholes and irregularities in the coating.

Item No.	Size
KW23007510	Gallon
KW23007518	5 Gallon

### CPS Degreaser 1:55 Concentrate

CPS Degreaser 1:55 concentrate is a blue water-based preparation for the removal of grease and general contaminants prior to applying the stencil.

Item No.	Size
CPS19932	Gallon

### CPS Degreaser 1:15 Concentrate

CPS Degreaser 1:15 concentrate is a blue water-based preparation for the removal of grease and general contaminants prior to applying the stencil.

Item No.	Size
CPS19577	1 Liter

## STENCILS & CAPILLARY FILMS

### Did you know...

**Diazo Emulsions** have been used for many decades and are still preferred when low production cost is a major consideration. Diazo emulsions are either water resistant or resistant to UV and solvent-based inks.

**Diazo-Photopolymer Emulsions**, also known as **Dual-Cure Emulsions** are based on newer technology and offer the largest variety in features and applications. They typically offer high-resolution and the widest exposure latitude of the three emulsion systems as well as superior solvent and water resistance. More molecular cross-linking assures wider ink resistance and stencil durability. Best imaging properties of any emulsion group. Wide processing/exposure latitude. Diazo emulsions must be mixed with diazo sensitizer. Once mixed, they have a shelf life of about two to three months depending on storage conditions.

**SBQ Emulsions** are one-component emulsion systems that are pre-sensitized and ready for use. They usually offer very fast exposure speed and can be used universally, but often are developed for specific applications and exposure equipment such as LED or Computer-to-Screen, high emulsion over mesh ratio or for coarse mesh counts. SBQ emulsions are typically resistant to UV, solvent-based, water-based and plastisol inks depending on formulation.

## STENCILS & CAPILLARY FILMS

### ImageStar ProTex SBQ Blue Emulsion

ImageStar ProTex SBQ Blue Emulsion and Diazo is an all-purpose, high-quality textile SBQ emulsion for water-base, discharge, plastisol and silicone inks. One-part emulsion, with high solids content, 43%, can be exposed when dry to the touch and post exposure significantly increases water-based runs. Optional diazo addition will improve fine detail.

Item No.	Emulsion Type	Size
IMSPT10903	SBQ Photopolymer	Quart
IMSPT10904	SBQ Photopolymer	Gallon
IMSPT10905	SBQ Photopolymer	5 Gallon

### ImageStar IMS903 Purecoat Ultimate SBQ Pink Emulsion

ImageStar IMS903 Purecoat Ultimate SBQ is a presensitized pure photopolymer pink emulsion designed for use in textile printing. It exhibits excellent resolution and fast exposure to enable very quick and efficient screen making. The high solids content, 44%, helps provide outstanding mesh bridging and wide exposure latitude for high-detail and 4-color process work.

Item No.	Emulsion Type	Size
IMS90304	SBQ Photopolymer	Gallon
IMS90305	SBQ Photopolymer	5 Gallon

### ImageStar IMS905 Purecoat High Viscosity (HV) SBQ Magenta Emulsion

ImageStar IMS905 Purecoat HV SBQ is a high-quality pure photopolymer magenta emulsion with a heavy viscosity designed for textile printers who need quick exposure, high-resolution, high solids and quick drying. The heavy viscosity makes this emulsion ideal for coating coarse mesh and thicker stencils. 46% solids content.

Item No.	Emulsion Type	Size
IMS90504	SBQ Photopolymer	Gallon
IMS90505	SBQ Photopolymer	5 Gallon

## STENCILS & CAPILLARY FILMS

### ImageStar IMS907 Easy Reclaim (ER) SBQ Blue Emulsion

ImageStar IMS907 Purecoat ER SBQ is a presensitized blue Pure-Photopolymer emulsion designed for textile printing. It exhibits excellent resolution, high solids and fast exposure to enable very quick and efficient screen making. The ER is a designation for the easy reclaimability of this SBQ emulsion. The high solids content and wide exposure latitude make this an ideal product for 4-color process and fine detail printing. 42% solids content.

Item No.	Emulsion Type	Size
IMS90704	SBQ Photopolymer	Gallon
IMS90705	SBQ Photopolymer	5 Gallon

### ImageStar IMS901 Purecoat Rapid Red Emulsion

ImageStar IMS 901 Purecoat Rapid Red Emulsion is a dual cure Diazo-Photopolymer emulsion designed to exhibit excellent resolution and mesh bridging while having outstanding water and solvent resistance. The red color gives this emulsion very fast exposure speed with great developing and reclaiming properties. 34% solids content.

Item No.	Emulsion Type	Size
IMS90104	Dual Cure	Gallon
IMS90105	Dual Cure	5 Gallon

### ImageStar IMS902 Purecoat Optima Blue Emulsion

ImageStar IMS902 Purecoat Optima Blue Emulsion is a dual cure Diazo-Photopolymer emulsion designed to exhibit excellent resolution and mesh bridging while having outstanding water and solvent resistance. It is blue in color for easy registration viewing and exhibits very fast exposure speed with great developing and reclaiming properties. 34% solids content.

Item No.	Emulsion Type	Size
IMS90204	Dual Cure	Gallon

## STENCILS & CAPILLARY FILMS

### CCI ProChem L.X.P. LED Green Emulsion

An all-purpose solvent and water resistant photopolymer emulsion. CCI ProChem® L.X.P. LED Green Emulsion is specially formulated with special photo-initiators for newer LED light sources. This product is an extremely high viscosity emulsion with a high solids content, 45%, which yields a better coating, sharp edges and excellent resolution.

Item No.	Emulsion Type	Size
CCLXP04	SBQ Photopolymer	Gallon
CCLXP05	SBQ Photopolymer	5 Gallon

### CCI ProChem HXT Blue & HXT Red Emulsion

A one part ready-to-use emulsion, for both graphic and textile applications. CCI ProChem® HXT Blue & HXT Red Emulsion, offer durability, excellent image quality and superior coating characteristics. Due to its hybrid dual-cure/pre-sensitized formula, it produces sharper edges and unsurpassed resolution.

Item No.	Emulsion Type/Color	Size
CCHXT04	SBQ Photopolymer – Blue	Gallon
CCHXT05	SBQ Photopolymer – Blue	5 Gallon
CCHXTRED04	SBQ Photopolymer – Red	Gallon
CCHXTRED05	SBQ Photopolymer – Red	5 Gallon

### CCI ProChem UHV-Blue & UHV-Red Emulsion

An extremely high viscosity, one part, ready-to-use textile emulsion. CCI ProChem® UHV-Blue & UHV-Red Emulsion offer long run durability and image quality. Due to the product's high solids, 45%, it yields a better coating, sharp edges and excellent resolution. Solvent and water resistant this emulsion can be post exposed after image washout and dried to provide maximum durability when using water-based inks.

Item No.	Emulsion Type/Color	Size
CCUHV04	SBQ Photopolymer – Blue	Gallon
CCUHV05	SBQ Photopolymer – Blue	5 Gallon
CCUHV04	SBQ Photopolymer – Red	Gallon

## STENCILS & CAPILLARY FILMS

### CCI ProChem PFX-HV Red Emulsion

One part, ready-to-use textile emulsion, recommended for plastisol inks. CCI ProChem® PFX-HV Red Emulsion offers durability and excellent image quality. Due to the product's high solids content, 47%, it yields a better coating, sharper edges and excellent resolution.

Item No.	Emulsion Type	Size
CCPFXHV04	SBQ Photopolymer	Gallon
CCPFXHV05	SBQ Photopolymer	5 Gallon

### CCI ProChem VPR Violet Emulsion

One part, ready-to-use textile emulsion, recommended for plastisol and water-based inks. CCI ProChem® VPR Violet Emulsion offers durability and excellent image quality. Due to the product's solids content, 38%, it yields a better coating, sharper edges and excellent resolution. Has excellent water resistance.

Item No.	Emulsion Type	Size
CCVPR04	SBQ Photopolymer	Gallon

### CCI ProChem DXP DUAL-CURE Pink Emulsion

One part, ready-to-use textile emulsion, recommended for plastisol and water-based inks. CCI ProChem® DXP DUAL-CURE Pink Emulsion offers durability and excellent image quality. Due to the product's solids content, 38%, it yields a better coating, sharper edges and excellent resolution. Has excellent water resistance.

Item No.	Emulsion Type	Size
CCDXP04	Dual Cure	Gallon

## STENCILS & CAPILLARY FILMS

### CCI ProChem WR-14 Water Resistant Blue Emulsion

CCI ProChem® WR-14 Water Resistant Blue Emulsion is a Diazo Sensitized Photo-Emulsion recommended for plastisol and water-based inks. It has excellent water resistance and 41% solids content.

Item No.	Emulsion Type	Size
CCWR1404	Diazo Emulsion	Gallon
CCWR1405	Diazo Emulsion	5 Gallon

### CCI Nexus Blue Emulsion

A one part ready-to-use ultra-fast exposing photopolymer emulsion, for textile applications using plastisol and water based inks. CCI Nexus Blue Emulsion properties; Ultra-high viscosity 12,000 cps, excellent humidity resistance, suitable for CTS and DTS systems, Solvent resistant, ideal for high density stencils, superior edge definition and 48% solids content.

Item No.	Emulsion Type/Color	Size
CCNEXUS04	Photopolymer – Blue	Gallon
CCNEXUS05	Photopolymer – Blue	5 Gallon

### CCI TX Orange Emulsion

A one part photopolymer emulsion, for textile applications using plastisol, discharge and water based inks. CCI TX Orange Emulsion properties; Orange color and scent, delivers virtually pinhole- free and fish eye- free stencils, extremely durable stencil for long print runs, outstanding resolution and edge definition and 40% solids content.

Item No.	Emulsion Type/Color	Size
CCTXORANGE04	Photopolymer – Orange	Gallon
CCTXORANGE05	Photopolymer – Orange	5 Gallon

### CCI Stellar Turquoise Emulsion

A one part photopolymer emulsion, for textile applications using plastisol and water based inks. CCI Stellar Turquoise Emulsion properties; Turquoise color, delivers virtually pinhole- free and fish eye- free stencils, extremely durable stencil for long print runs, good resolution and edge definition and 38 % solids content.

Item No.	Emulsion Type/Color	Size
CCSTELLARTURQ04	Photopolymer – Turquoise	Gallon
CCSTELLARTURQ05	Photopolymer – Turquoise	5 Gallon

## STENCILS & CAPILLARY FILMS

### KIWO POLYCOL MULTI-TEX Emulsion Red & Blue

KIWO POLYCOL® MULTI-TEX is a high solids, fast exposing, pure photopolymer emulsion specially formulated for use with the newest textile inks including all plastisol, water-based and discharge systems. It is optimized for use on the newest computer-to-screen imaging & LED exposing systems as well as conventional exposure systems.

Item No.	Emulsion Type	Size
KW21023004	SBQ Photopolymer – Red	Quart
KW21023444	SBQ Photopolymer – Red	Gallon
KW21023748	SBQ Photopolymer – Red	5 Gallon
KW21024004	SBQ Photopolymer – Blue	Quart
KW21024444	SBQ Photopolymer – Blue	Gallon
KW21024748	SBQ Photopolymer – Blue	5 Gallon

### KIWO POLYCOL CROSSOVER Red Emulsion

KIWO POLYCOL® CROSSOVER provides great versatility and sets a new standard for high-quality SBQ emulsions for garment printers using plastisol, UV and solvent resistant inks. Outstanding resolution, no solvent lock-in and extremely easy developing and reclaiming. Exposure speeds are 3 to 4X faster than a dual-cure.

Item No.	Emulsion Type	Size
KW21822940	SBQ Photopolymer	Gallon
KW21822748	SBQ Photopolymer	5 Gallon

### KIWO POLYCOL ONE-COAT Blue Emulsion

POLYCOL ONE-COAT is a high solids, extremely fast exposing pre-sensitized SBQ emulsion for printing garments with plastisol, water-based, and discharge inks. This emulsion is specifically developed for screen room efficiency and high processing speed, thereby reducing the coating, drying and exposing times. Optimal stencil thickness is achieved by applying one coat of emulsion on each side of the screen.

Item No.	Emulsion Type	Size
KW21848444	SBQ Photopolymer	Gallon
KW21848748	SBQ Photopolymer	5 Gallon

## STENCILS & CAPILLARY FILMS

### KIWOCOL POLY-PLUS ER Blue Emulsion

KIWOCOL® POLY-PLUS ER is a high solids easy reclaiming diazo-photopolymer emulsion used for the production of high-quality, UV, solvent and plastisol resistant stencils. It's high solids content offers rapid build with few coats, fast drying and smooth stencils. An economical and easy reclaiming dual-cure emulsion. Its tack free surface makes it compatible with ink jet film positives.

Item No.	Emulsion Type	Size
KW21863940	Dual Cure	Gallon

### KIWOCOL POLY-PLUS S Blue Emulsion

KIWOCOL® POLY-PLUS S offers outstanding copying properties. It is highly suitable for halftone reproduction or other fine detail work. It's solvent resistance gives superior strength against most solvents and ink washes, while remaining durable in humid environments. It's flexibility offers very good mechanical resistance.

Item No.	Emulsion Type	Size
KW21375951	Dual Cure	Quart
KW21375940	Dual Cure	Gallon
KW21375747	Dual Cure	5 Gallon
KW21375720	Dual Cure	55 Gallon

### KIWOCOL POLY-PLUS SWR Blue Emulsion

KIWOCOL® POLY-PLUS SWR Emulsion enables you to reproduce quality printed images with the most popular ink systems available today – an excellent choice for close tolerance printing. High-resistance to solvents and moisture make a very durable stencil that is suitable for long runs on a wide variety of substrates.

Item No.	Emulsion Type	Size
KW21567940	Dual Cure	Gallon
KW21567747	Dual Cure	5 Gallon
KW21567720	Dual Cure	55 Gallon

### KIWOCOL POLY-PLUS Z Blue Emulsion

KIWOCOL® POLY-PLUS Z is a 40% solids content emulsion combining superb resolution with economy. It is UV, solvent and plastisol resistant and is formulated for smooth easy coating. It's low tack surface provides less squeegee drag as well as improved ink release and screen peel characteristics. Emulsion appears green once sensitized and reverts back to blue when exposed.

Item No.	Emulsion Type	Size
KW21343940	Dual Cure	Gallon
KW21343747	Dual Cure	5 Gallon

# STENCILS & CAPILLARY FILMS

## Ulano SBQ Orange Emulsion

Ulano SBQ Orange™ is a ready-to-use one part SBQ-photopolymer direct emulsion formulated for imprinted sportswear printing. It is formulated with a “masking color” that reduces light scattering — the major cause of loss of resolution. With Orange, it is possible to use less costly white mesh without the closing up of fine lines and details.

Item No.	Emulsion Type	Size
ULOR04	SBQ Photopolymer	Gallon
ULOR05	SBQ Photopolymer	5 Gallon
ULOR50	SBQ Photopolymer	50 Gallon

## Ulano QTX SBQ Pink Emulsion

Ulano QTX® is a ready-to-use, ultra-fast exposing SBQ photopolymer direct emulsion formulated for imprinted sportswear applications. It's high solids content, 46%, provides superior coating properties, better bridging of coarse mesh and fast drying.

Item No.	Emulsion Type	Size
QTX4	SBQ Photopolymer	Gallon
QTX5	SBQ Photopolymer	5 Gallon

## Ulano Platinum SBQ Gray Emulsion

Ulano Platinum™ is a ready-to-use SBQ-photopolymer direct emulsion formulated for imprinted sportswear printing and other markets. It resists plastisol inks, including newer, more aggressive, post-phthalate plastisols and most wash up solvents, making it easy to reclaim in automatic equipment or by hand.

Item No.	Emulsion Type	Size
ULPLATINUM04	SBQ Photopolymer	Gallon
ULPLATINUM05	SBQ Photopolymer	5 Gallon

## Ulano QLT SBQ Blue Emulsion

Ulano QLT™ SBQ is a ready-to-use, ultra-fast-exposing SBQ-photopolymer emulsion formulated for imprinted sportswear printing. QLT is formulated to shorten stencil-making, high solids content, 43%, which allows a thick build per coat, reducing the number of coats over conventional emulsions. Diazo may be added to increase water resistance.

Item No.	Emulsion Type	Size
QLT4	SBQ Photopolymer	Gallon
QLT5	SBQ Photopolymer	5 Gallon

## STENCILS & CAPILLARY FILMS

### Ulano Blue Emulsion

Ulano Blue is a ready-to-use, extremely-fast-exposing SBQ-photopolymer direct emulsion formulated for imprinted sportswear printing. It resists plastisol inks—including newer, more aggressive, post-phthalate plastisols and most wash up solvents, making it exceptionally easy to reclaim in automatic equipment or by hand.

Item No.	Emulsion Type	Size
UFBLUE04	SBQ Photopolymer	Gallon
UFBLUE05	SBQ Photopolymer	5 Gallon

### Ulano QXO SBQ Orange Emulsion

Ulano QXO™ is a ready-to-use, fast-exposing SBQ-photopolymer direct emulsion formulated for imprinted sportswear printing. It resists plastisol inks — including newer, more aggressive, post-phthalate plastisols and most wash up solvents, making it easy to reclaim in automatic equipment or by hand.

Item No.	Emulsion Type	Size
ULQX004	SBQ Photopolymer	Gallon

### Ulano 925WR-P Violet Emulsion

Ulano® 925 WR-P is a pale violet emulsion formulated for use with water-based textile inks. It has 41% solids content and a viscosity of 7000 centipoise (sensitized). It is formulated for mechanical durability and superb water resistance.

Item No.	Emulsion Type	Size
UL925WRP04	Diazo Emulsion	Gallon
UL925WRP05	Diazo Emulsion	5 Gallon

# STENCILS & CAPILLARY FILMS

## Chromaline ChromaBlue Emulsion

Chromaline ChromaBlue™ is for use with plastisol inks. It is ideally suited for textile printers using direct emulsions who are seeking faster screen turnaround without sacrificing image quality. Fast exposing and easy to reclaim.

Item No.	Emulsion Type	Size
CTB4	SBQ Photopolymer	Gallon
CTB35	SBQ Photopolymer	3.5 Gallon

## Chromaline ChromaLime Green Emulsion

Chromaline ChromaLime™ is a translucent green emulsion that is compatible with UV LED as well as traditional metal halide exposure units. The translucent color facilitates see-through image registration.

Item No.	Emulsion Type	Size
CHROMALIME04	SBQ Photopolymer	Gallon

## Chromaline Magna/Cure UDC-2 Direct Emulsion

Chromaline Magna/Cure® UDC-2 provides excellent line and image definition with exceptional stencil durability. The blue color offers good contrast and easy registration.

Item No.	Emulsion Type	Size
UDC2D3	Dual Cure	Quart
UDC2D4	Dual Cure	Gallon
UDC2D35	Dual Cure	3.5 Gallon

## Chromaline Magna/Cure UDC-HV Violet Emulsion

Chromaline Magna/Cure® UDC-HV emulsion has high viscosity for easy coating on low or high mesh counts. Plus, UDC-HV offers excellent resistance to a wide range of inks and additives. HV is fast exposing with excellent image quality, hard durable stencils and resistant to the widest range of inks and additives.

Item No.	Emulsion Type	Size
UDCHVD4	Dual Cure	Gallon
UDCHVD35	Dual Cure	3.5 Gallon

## Chromaline Magna/Cure UDC-ACE Aqua Emulsion

Chromaline Magna/Cure® UDC-ACE is a universal high-resolution emulsion designed to offer excellent resistance in any imaging application. It also offers outstanding resistance to aggressive water and solvent based inks and adhesives.

Item No.	Emulsion Type	Size
UDCACE4	Dual Cure	Gallon
UDCACE35	Dual Cure	3.5 Gallon

## STENCILS & CAPILLARY FILMS

### MacDermid Autotype Plus 9000 Red Emulsion

MacDermid Autotype Plus 9000 is formulated specifically for the production of photo stencils used for screen printing garments. It is fast exposing, 48% solids emulsion and is intended for use with garment printing inks that do not contain water.

Item No.	Emulsion Type	Size
P90004L	SBQ Photopolymer	4 Liter
P900020L	SBQ Photopolymer	20 Liter

### MacDermid Autotype Plus Aqua Blue Emulsion

MacDermid Autotype Plus Aqua Blue Emulsion is a very fast, one-pot photopolymer direct emulsion. Specifically formulated for use in the textile industry for printing imprinted sportswear using water-based and/or plastisol inks.

Item No.	Emulsion Type	Size
AP266304L	SBQ Photopolymer	4 Liter
AP3050520L	SBQ Photopolymer	20 Liter

### MacDermid Autotype Plus Lava Red Emulsion

MacDermid Autotype Plus Lava Red Emulsion is a high-quality, pre-sensitized 43% solids, red pigmented aqueous emulsion of water soluble dispersible polymers and monomers, supplied with Diazo powder sensitizer for increased resistance.

Item No.	Emulsion Type	Size
P311784L	SBQ Photopolymer	4 Liter

### MacDermid Autotype Plus 6000 Purple Emulsion

MacDermid Autotype Plus 6000 is a high-quality, high solids, 44%, garment emulsion that is supplied with a diazo powder sensitizer. Perfect for medium/coarse meshes and has very good resistance to water-based and plastisol inks.

Item No.	Emulsion Type	Size
P60004L	Diazo Emulsion	4 Liter

## STENCILS & CAPILLARY FILMS

### Ulano EZ-50 ORANGE Pure Photopolymer Capillary Film

Ulano EZ-50 Orange™ is a pure photopolymer (SBQ), pre-sensitized capillary film appropriate for general sportswear printing. Fast exposing and its high contrast orange color “masks” halation and light scattering, thereby improving resolution without the need to use more-costly dyed mesh.

Item No.	Emulsion Type/Specs	Stencil Thickness/Microns	Size
EZ50ORANGE15X17	SBQ Photopolymer – 15" x 17"	50	Box of 50
EZ50ORANGE17X24	SBQ Photopolymer – 17" x 24"	50	Box of 50

### Ulano CDF Lexar 50 Film

Ulano CDF® Lexar™ 50 Film is formulated for use with solvent based inks. Easy to reclaim and well suited to the printing of flat-stock graphics, plastisols for textiles, POP displays, computer-to-screen (CTS), containers, printable adhesives and advertising specialties.

Item No.	Emulsion Type/Specs	Stencil Thickness/Microns	Size
CDFLEX5025X394	SBQ Photopolymer – 25" x 394"	50	Roll

### Ulano CDF 35 Vision

Ulano CDF® 35 Vision is a diazo dual-cure capillary film system. Its special formulation controls mesh penetration and enhances photo-polymerization, resulting in sharp printing shoulders and mechanical durability.

Item No.	Emulsion Type/Specs	Stencil Thickness/Microns	Size
CDFVIS3516X18B5	Dual Cure – 16" x 18"	35	Box of 50
CDFVIS3525X394	Dual Cure – 25" x 394"	35	Roll

## STENCILS & CAPILLARY FILMS

### Chromaline Chroma Super PHAT

Chromaline Chroma Super PHAT™ is an ideal choice for printers seeking heavy ink deposit in a variety of applications. Super PHAT film works well for textile printers working with high density and special effects inks.

Item No.	Emulsion Type/Specs	Stencil Thickness/Microns	Size
PHAT20026X7	SBQ Photopolymer – 26" x 7'	200	Roll
PHAT30026X7	SBQ Photopolymer – 26" x 7'	300	Roll
PHAT40026X7	SBQ Photopolymer – 26" x 7'	400	Roll

### Chromaline Pro/Cap 38 Capillary Photostencil Film

Chromaline Pro/Cap® 38 is an easy to use pre-sensitized solvent and plastisol resistant capillary film for high edge definition.

Item No.	Emulsion Type/Specs	Stencil Thickness/Microns	Size
PC3826X30	Diazo Emulsion – 26" x 30'	38	Roll

## EMULSION REMOVERS

### ImageStar ProTex Emulsion Remover

1:35 concentrate, ImageStar ProTex Emulsion Remover is designed to remove all stencil types except indirect gelatin film. Includes a degreaser to improve penetration on screens with solvent residue. Fast acting and can be used manually or in automatic machines.

Item No.	Size
IMSPT1055OZ	5 oz
IMSPT10503	Quart
IMSPT10504	Gallon

### ImageStar ProTex Emulsion and Ink Remover for Dip Tanks

10:1 concentrate, ImageStar ProTex Dip Tank Emulsion/Ink Remover for dip tanks is the perfect solution for removing emulsion and inks of all stencil types.

Item No.	Size
IMSPT10603	Quart
IMSPT10605	5 Gallon
IMSPT10655	55 Gallon

### ImageStar IMS601 Ready-For-Use Stencil Remover

ImageStar IMS601 Ready-For-Use Stencil Remover breaks down stencil material quickly and can be applied right from the container without mixing.

Item No.	Size
IMS60104	Gallon
IMS60105	5 Gallon
IMS60155	55 Gallon

## EMULSION REMOVERS

### ImageStar IMS630 1:20 Stencil Remover Concentrate

1:20 concentrate, ImageStar IMS630 Stencil Remover is a perfect fit for those shops using a concentrate but not mixing full drums at one time.

Item No.	Size
IMS63004	Gallon
IMS63005	5 Gallon
IMS63055	55 Gallon

### ImageStar IMS603 Stencil Remover Powder

ImageStar IMS603 Stencil Remover Powder has long been a standard way of making emulsion removers. Powders can be mixed at different dilution rates making it both economical and universal where you can basically customize the solution to specifications. 1.5 ounces per gallon is the recommended starting mixing ratio. More powder can be added if a higher concentrate is needed.

Item No.	Size
IMS6031LB	1 lb.
IMS6032LB	2 lbs.

### CCI ER/35 Bio Emulsion Remover

CCI ER/35® Bio Emulsion Remover is designed for removal of all photopolymer, diazo and capillary film emulsions. It is safe on all types of mesh and is drain acceptable to a treatment plant, after soil release, when used as directed.

Item No.	Size
CCER3504	Gallon
CCER3505	5 Gallon
CCER3555	55 Gallon

### ImageStar IMS602 1:50 Stencil Remover Concentrate

ImageStar IMS602 Stencil Remover concentrate is economical and powerful at a 1:50 concentrate.

Item No.	Size
IMS60204	Gallon

### CCI CDR-CONCENTRATE

When in diluted form, CCI CDR-CONCENTRATE® will quickly and economically remove all types of photo-polymer, diazo and capillary film on all types of mesh.

Item No.	Size
CDR04	Gallon
CDR05	5 Gallon

## EMULSION REMOVERS

### CCI Gem-Zyme Emulsion Remover

CCI Gem-Zyme is designed for removal of all photopolymer, diazo and capillary film emulsions. Product will immediately liquify and break down the emulsion and dramatically increase the speed of the reclaim procedure. Contains natural enzymes to help degrade the emulsion.

Item No.	Size
GEM05	5 Gallon

### CCI MICROWASH II

CCI MICROWASH II is a water soluble ink degradant and emulsion remover. It is formulated to work on UV and plastisol inks. MICROWASH II will remove all photopolymer, diazo and capillary film emulsions. This product is safe on all mesh types.

Item No.	Size
MW205	5 Gallon
MW255	55 Gallon

### CPS Stencil Remover 1:55 Concentrate

CPS Stencil Remover Concentrate 1:55 is a concentrated product that is diluted with water and used to reclaim stencil making systems such as emulsions and capillary films.

Item No.	Size
CPS19933	Gallon

### CPS Stencil Remover 1:30 Concentrate

CPS Stencil Remover is a concentrated periodate-based stencil reclaimer that is mixed with water to make a highly effective, ready-to-use product.

Item No.	Size
CPS22835	1 Liter

### CCI ER/80 Super Concentrated Emulsion Remover

CCI ER/80 is designed for removal of all photopolymer, diazo and capillary film emulsions. ER/80 will immediately liquify and break down the emulsion. Dramatically increase the speed of the reclaim procedure.

Item No.	Size
CCER8004	Gallon
CCER8005	5 Gallon

### CCI ECO-STRIP Part A and Part B

CCI ECO-STRIP® is a water soluble ink degradant and emulsion remover. It is formulated to work on UV, plastisol and water-based ink systems. The ECO-STRIP solution will remove all photo-polymer, diazo and capillary film emulsions and is ideal for use in automatic reclaiming equipment. It is a two-part system.

Item No.	Description
CCECOSTRIPA05	Part A – 5 Gallon
CCECOSTRIPA30	Part A – 30 Gallon
CCECOSTRIPA55	Part A – 55 Gallon
CCECOSTRIPB03	Part B – Quart
CCECOSTRIPB04	Part B – Gallon

### KIWO Stencil Remover 1:20 Concentrate

KIWO Stencil Remover is a very economical liquid 1:20 concentrate stencil remover for all direct emulsions and capillary films. It is formulated for manual or automatic reclaiming of printing screens and does not contain any chlorine or heavy metals.

Item No.	Size
KW24308311	Quart
KW24308510	Gallon
KW24308518	5 Gallon

## INK DEGRADENT

### ImageStar ProTex Ink Remover

ImageStar ProTex Ink Remover is the perfect solution for removing solvent, UV and textile inks from the screen. It can be used from container or diluted up to 50/50 with water for screen cleaning (plastisol and silicone ink) or diluted up to 80/20 with water for screen cleaning (water-based textile inks).

Item No.	Size
IMSPT10703	Quart
IMSPT10704	Gallon
IMSPT10705	5 Gallon
IMSPT10755	55 Gallon

### CCI WB-1 Bio Screen Wash

CCI WB-1 is a water soluble ink degradant designed for the removal of all inks, especially tough inks such as water-base, epoxy, UV and enamels. It is an effective, non-caustic stain remover of cured stains.

Item No.	Size
WB104	Gallon
WB105	5 Gallon
WB155	55 Gallon

### CCI GR-6v Ink Degradant Wash

CCI GR-6v is a water soluble screen wash designed for the removal of all inks, including plastisol and UV inks.

Item No.	Size
GR6V04	Gallon
GR6V05	5 Gallon
GR6V55	55 Gallon

### CCI IW-107 Water Soluable Ink Degradant

CCI IW-107 is a water soluble ink degradant that is highly effective on plastisol, multi-purpose (solvent based), poster, UV and vinyl inks.

Item No.	Size
CCIW10705	5 Gallon
CCIW10755	55 Gallon

## INK DEGRADENT

### CCI HR-30 Ink and Stain Remover

CCI HR-30 is a water soluble screen wash designed for the removal of all inks, including plastisol and UV inks. It works on inks such as water-base, vinyl epoxy and enamels and can also be used for the removal of stubborn cured ink stains (ghost or haze).

Item No.	Size
HR3004	Gallon
HR3005	5 Gallon
HR3030	30 Gallon
HR3055	55 Gallon

### CCI CITRA-PASTE Ink Degradent

CCI CITRA-PASTE is a semi-viscous, water soluble cleaner. It is designed for the removal of a variety of inks without attacking the emulsion. It's top priority is plastisol and water-based inks.

Item No.	Size
CP04	Gallon
CP05	5 Gallon

### CCI IW-108 Screen Wash

CCI IW-108 is a water soluble ink degradent. It is highly effective on plastisol, multi-purpose (solvent based), poster, UV and vinyl inks.

Item No.	Size
CCIW10805	5 Gallon
CCIW10855	55 Gallon

### CCI IW-6 Screen Wash/ Ink Degradent

CCI IW-6 is a water soluble ink degradent. It is highly effective on lacquer ink, lacquer stencil, enamel, vinyl, Mylar, poster ink and UV ink.

Item No.	Size
IW605	5 Gallon
IW655	55 Gallon

### CCI GR-70 Wash Stain Remover

CCI GR-70 is a water soluble, non-caustic cleaner. It is highly effective on laquer ink, laquer stencil, vinyl, mylar, poster, UV and plastisol inks. As a haze remover, it is designed for the removal of cured ink stains. This product will not attack or damage the fabric.

Item No.	Size
GR7005	5 Gallon
GR7030	30 Gallon
GR7055	55 Gallon

### CPS Screen Wash UV

CPS Screen Wash UV is part of the CPS Green Screen range as a concentrated ink cleaner that is diluted 1:1 and up to 1:2 with water.

Item No.	Size
CPS30636	20 Liter
CPS28005	210 Liter

### KIWO KIWOCLEAN Concentrated Ink Wash

KIWO KIWOCLEAN is very effective at removing plastisol, UV and some solvent-based ink systems. It is more environmentally friendly than many other ink wash products because it can be diluted with water without reducing its effectiveness, which reduces packaging, shipping weight, transportation costs and VOC levels. This unique formulation also helps reduce ghost haze images. CIW can be refreshed quickly in a settling tank.

Item No.	Size
KW23126312	Quart
KW23126511	Gallon
KW23126518	5 Gallon

## PRESS WASHES

### ImageStar ProTex Presswash

ImageStar ProTex Presswash is designed to remove plastisol and silicone inks from screens on press and works well to remove adhesives from platens. Works on all plastisol and silicone textile inks (not for water-based inks). Low odor and fast-drying when buffed vigorously with 100% cotton cloth.

Item No.	Size
IMSPT10803	Quart
IMSPT10804	Gallon
IMSPT10805	5 Gallon
IMSPT10855	55 Gallon

### CCI SCREEN WASH 147

CCI SCREEN WASH 147 is designed for when a flash point above 140°F is required. SCREEN WASH 147 can be re-circulated or applied manually.

Item No.	Size
CC14705	5 Gallon
CC14755	55 Gallon

### CCI PRESS WASH LV

CCI PRESS WASH LV is best when used with graphic applications or in shops that print both graphics and textiles. PRESS WASH LV is designed for the removal of all inks, especially vinyl, water-base, epoxy and enamel. It is non-flammable, fast drying and has a high solvency.

Item No.	Size
PWLV04	Gallon
PWLV05	5 Gallon
PWLV30	30 Gallon
PWLV55	55 Gallon

### CCI Multi-Wash

A water soluble ink degradant. It is highly effective on plastisol, solvent based poster, UV and vinyl inks. Multi-Wash will protect the screen mesh from deep stains or image ghosting from the image print making it much easier when complete reclaiming of the screen is necessary. Advantages; Low odor, high solvency, high load capacity to reduce usage, high flash point/non-flammable, non-hazardous, mesh safe, and does not contain Alkylphenol (APEO)/ Nonylphenol Ethoxylates (NPEO) surfactants.

Item No.	Size
CCMULTIWASH05	5 Gallon
CCMULTIWASH55	55 Gallon

## PRESS WASHES

### CCI CG-3 Press Wash

CCI CG-3 can be used in a wide variety of innovative cleaning processes ranging from re-circulation machines, dip tanks, or precision immersion cleaning processes. CG-3 may also be applied manually by a brush or a hand held sprayer.

Item No.	Size
CG305	5 Gallon
CG355	55 Gallon

### CCI TS-305 Press Wash

CCI TS-305 is faster drying and a more aggressive press wash designed for the removal of plastisol and UV inks when reclaiming your screen or for removing ink only and saving the screen. This product is also an excellent cleaner for the removal of pallet or belt printers' adhesive.

Item No.	Size
TS30504	Gallon
TS30505	5 Gallon
TS30555	55 Gallon

### CCI TS-400 Press Wash

CCI TS-400 is designed as a press wash and screen opener for the removal of plastisol and UV inks. TS-400 can be continuously recirculated until it becomes too heavily soiled with solids.

Item No.	Size
TS40005	5 Gallon

### KIWO ON-PRESS CLEANER with Citrus

KIWO ON-PRESS CLEANER with Citrus is a highly effective quick evaporating solvent mixture that does not leave any residue after drying. It is formulated for cleaning the screen on press when an ink change takes place or as a screen opener. It can also be used to remove residue from slower evaporating solvents. The flashpoint and vapor pressure are balanced to allow for fast drying and modest odor.

Item No.	Size
KW23240518	5 Gallon
KW23240727	55 Gallon

### CPS Press Wash UV

CPS Press Wash UV is part of the Green Screen range as an ink cleaner. Press Wash UV provides screen printers with a low evaporating press wash for on press cleaning of industrial and graphics UV inks.

Item No.	Size
CPS19756	5 Liter
CPS19757	25 Liter
CPS19758	210 Liter

## HAZE REMOVERS

### ImageStar ProTex Haze Remover Paste

ImageStar ProTex Haze Remover Paste was specifically designed to remove stains, haze and ghost images from mesh for screen recycling. SCQAMD compliant, very stable and low odor.

Item No.	Size
IMSPT10303	Quart
IMSPT10304	Gallon
IMSPT10305	5 Gallon

### ImageStar ProTex Haze Remover Gel

ImageStar ProTex Haze Remover Gel removes stains, haze and ghost images from mesh for screen recycling. Low odor and works in minutes.

Item No.	Size
IMSPT10403	Quart
IMSPT10404	Gallon
IMSPT10405	5 Gallon

## HAZE REMOVERS

### CCI LSR/30 Stain Remover

CCI LSR/30 is a semi-viscous liquid de-hazer and degreaser that is designed for all ink systems. Ideal for use on multiple deep stains.

Item No.	Size
LSR3003CS	4 Quart Case
LSR3005	5 Gallon
LSR3030	30 Gallon
LSR3055	55 Gallon

### CCI Pink Stuff Dehazer/Degreaser

"The Pink Stuff" is a non-hazardous viscous ghost/image stain remover and degreaser that is designed for textile ink systems.

Item No.	Size
CCTPS04	Gallon
CCTPS05	5 Gallon
CCTPS55	55 Gallon

### CCI LIQUID RENU-IT Liquid Stain Remover

CCI LIQUID RENU-IT® is a semi-viscous de-hazer and degreaser that is designed for the removal of cured stains on a variety of ink systems.

Item No.	Size
LR03CS	4 Quart Case
LR05	5 Gallon

### KIWO Haze Remover

KIWO Haze Remover is a slow acting liquid haze remover used to remove most ink stains and emulsion residue. It works slowly while it dries onto the mesh, and thus should be coated or brushed onto a dry screen.

Item No.	Size
KW24102512	Gallon
KW24102518	5 Gallon

### CCI H/C-100 Haze & Image Remover

CCI H/C-100 is a paste ghost/image stain remover designed to work fast increasing screen turn-around. Its blend of water-based alkaline cleaners and solvent active detergents completely clean the mesh of stains.

Item No.	Size
HC10004	Gallon
HC10005	5 Gallon

### CCI GB-2000 Paste Haze & Image Remover

CCI GB-2000 is an aggressive, fast-acting paste ghost/image stain remover designed for all ink systems.

Item No.	Size
GB200004	Gallon
GB200005	5 Gallon

### CPS Haze Remover HV

CPS Haze Remover HV is a low caustic ink, emulsion and diazo stain remover gel. The low caustic level is safer for operators and ensures that the mesh isn't damaged in use.

Item No.	Size
CPS19866	5 Liter
CPS30601	20 kg

## BLOCKOUTS

### ImageStar IMS702 Economy Blue Blockout

ImageStar Blockout is used both after the screen is exposed and dried or on press to fill pin holes and open mesh areas. Water soluble, air dry and resist most solvent inks and cleaners.

Item No.	Size
IMS70204	Gallon
IMS70205	5 Gallon

### ImageStar Red, Blue and Green Blockout Pens

ImageStar Blockout Pens are a non-hazardous fast drying water soluble blockout, designed for use with all stencil systems. It resists all solvent based, plastisol and UV inks. Red & Blue pens have a 10 - 15 minute dry time. Green pen has a 30 - 90 second dry time.

Item No.	Description
IMS7501	1 Red Pen
IMS7502	1 Blue Pen
IMS7503	1 Green Pen

### CCI RED-COAT Blockout

CCI RED-COAT Blockout is a medium viscosity, water soluble red blockout designed to fill the open areas of the screen not covered by the emulsion.

Item No.	Size
RC04	Gallon
RC05	5 Gallon

### CCI AQUA-BLOCK WR Blockout

CCI AQUA-BLOCK WR Blockout is ideal for water-based and discharge printing. Water-based, yet water resistant, violet block-out designed to fill the open areas of the screen not covered by the emulsion.

Item No.	Size
CCAB04	Gallon

## BLOCKOUTS

### Ulano No. 60 Screen Filler

Ulano® No. 60 is a blue water-soluble screen filler with drying characteristics similar to Indirect Films. It can be used full strength for touch-ups or thinned with water if desired.

Item No.	Size
UL603	Quart
UL604	Gallon

### Ulano No. 10 Extra Heavy Blockout

Ulano® No. 10 is a green heavy, non-flammable, water-soluble screen filler with drying characteristics similar to Indirect Films. The high viscosity of No. 10 Extra Heavy Blockout affords easier handling and generally assures effective coverage in a single coating. Especially useful with coarse mesh.

Item No.	Size
UL104	Gallon

### MacDermid Autotype Ruby Block

Autotype Ruby Block is a bright red, high-contrast water-soluble blockout for use on medium and fine mesh counts.

Item No.	Size
RB5L	5 Liter

## SPOT CLEANERS

### Albatross S.P.I.F. II Cleaning Fluid

Albatross® S.P.I.F.® II is a unique cured ink remover which does not contain any methylene chloride, perchloroethylene or any other chemical requiring a cancer warning. It completely removes all cured ink marks from all types of textiles.

Item No.	Size
ALB1090	Gallon
ALB1092	5 Gallon
ALB1094	55 Gallon

### CCI SR-97 Spot Remover

CCI SR-97 is a premium blend spot cleaning fluid for the removal of cured inks including plastisol, water-based and flock adhesive. It is formulated for all spot cleaning guns.

Item No.	Size
SR9704	Gallon
SR9705	5 Gallon
SR9755	55 Gallon

### Albatross Superkleen S.P.I.F. Cleaning Fluid

Albatross® Superkleen S.P.I.F.® completely removes cured plastisol inks, most water-based inks, flock lettering and adhesive from all textiles. Its unique oxygenated formula leaves fabric free of any trace of the ink smudge. Unlike other cured ink removers, S.P.I.F. is a full strength product and does not contain petroleum hydrocarbon fillers.

Item No.	Size
ALB1070	Gallon
ALB1071	5 Gallon
ALB1073	55 Gallon

### CCI Spot Removing Gun Kit

CCI Kit includes 1 gallon of SR-97 Premium Spot Remover and 1 all new heavy duty SG-5500 Spot Cleaning Gun.

The all new Heavy Duty SG-5500 Spot Cleaning Gun features adjustable spray pattern, high pressure jet flow, and integrated quick dry air nozzle.

Item No.	Description
SR97KITG	Gun Kit

## SPOT CLEANERS

### American Niagara Gun Kit

American Niagara Kit includes 1 gallon of Triple Blend Premium Cured Plastisol Remover and 1 Mystic spot cleaning gun.

The Mystic spot cleaning gun is a tough, dependable and durable cleaning gun designed to handle the strongest of solvents. Metal handle reduces risk of breaking if dropped.

Item No.	Description
MYSTICGUNKIT	Gun Kit

### American Niagara Triple Blend Liquid Cured Plastisol Remover & Stain Remover

American Niagara Triple Blend Liquid Cured Plastisol Remover & Stain Remover are Non-flammable, non-VOC and non-ODS plastisol stain remover. Made with an advanced blend of high-grade, virgin dichloromethane and tetrachloroethylene. Ideal solvent for screen printers and garment and textile printers.

Item No.	Size
TRIPLEBLEND04	Gallon
TRIPLEBLEND05	5 Gallon
TRIPLEBLEND55	55 Gallon

### TEKMAR TS-3 Spot Cleaning Fluid

TEKMAR TS-3 Spot Cleaning Fluid is a non-flammable cleaning fluid which will instantly remove 100% of cured plastisol inks, along with water-based, puff, flock adhesives and many other types of ink.

Item No.	Size
TS304	Gallon
TS305	5 Gallon

### American Niagara Discovery 2011 Advanced Stain Removing Solvent

American Niagara Discovery 2011 is a highly versatile product that effectively removes the transfer labels in t-shirts and various apparel, as well as cured plastisol ink from t-shirts and fleece goods. Furthermore, this product is an effective textile stain remover for grease, soil and oil base stains.

Item No.	Size
DISCOVERY201104	Gallon
DISCOVERY201105	5 Gallon
DISCOVERY201155	55 Gallon

## SCREEN MISCELLANEOUS PRODUCTS

### Ultimate Clean Up Cards

Ultimate Clean Up Cards are disposable and convenient cards to clean up squeegees and screens and save ink.

Item No.	Size
ULTCC1500BX	Box of 1500

### Ultimate Hand Cleaner

With or without water, ImageStar Ultimate Hand Cleaner reaches down and powers away even the toughest inks. This product protects your hands while dissolving heavy grime, grease, ink, tar, paint and oil without leaving you with greasy-feeling skin.

Item No.	Size
IMS890CS	4 Quart Case

## SCREEN MISCELLANEOUS PRODUCTS

### Nazdar All Purpose Wipes

Nazdar All Purpose Wipes are a water-based hand and surface cleaner that cuts through tar, grease, wax, ink, paint, lubricants and adhesives. Aggressive, citrus scented towels are industrial strength, yet gentle enough for your hands, as they are fortified with an emollient and natural oils.

Item No.	Size
NDS983	70 Count

### CCI EnviroWipes

CCI EnviroWipe®s are designed primarily for plastisol and water-based ink. Ideal for production color changes, ink clean-out for screens, removing ink from frames, cleaning equipment, squeegees and flood bars, spatulas, buckets, sample department and ink mixing department.

Item No.	Size
CCENVIROWIPES	150 Count

### Tork Cleaning Cloth

Tork Cleaning Cloth is a soft and flexible multipurpose cleaning cloth that is suitable for janitorial and industrial use.

Item No.	Specs	Size
510137A	12.6" x 10"	Roll of 500

### WyPall L40 White Wipers

WyPall L40 White Wipers are an outstanding general purpose wiper with good performance in a wide range of industrial cleaning and personal wiping tasks.

Item No.	Specs	Size
5701	12.5" x 13"	1,008 Wipers per Case

### Contec Polywipe-C Polyester Interlock Knit Wipe

Polywipe-C Wipe is a soft, lightweight wipe with a non-abrasive textured surface for effective cleaning without scratching. It is made from 100% polyester knitted fabric.

Item No.	Specs	Size
PC99	9" x 9"	75 per Bag

## SCREEN MISCELLANEOUS PRODUCTS

### Goop Scoop

Goop Scoop is a classic ink scraper with easy-grip handle. Remove the ink from your containers without any mess. Rigid poly design resists breakage. Easy to clean and re-use.

Item No.	Description
GS100I	1 Plastic Ink Knife

### Welded Disposable Pad

A heavy duty disposable pad with a welded on head designed to be used with all screen chemical products. Good scouring action for heavy stains that require more hand scrubbing.

Item No.	Description
IMS825	1 Pad

### Nortech Dual Edge Scoop Coaters

These scoop coaters feature a dual sided coating edge for either a sharp edge thin coat for higher screen mesh, or a rounded dull edge for coating lower mesh screens or for coating for heat transfers. Extruded from T6 aluminum, this coater is easy to hold, sits easily on flat surface between coats and holds a good amount of emulsion for lengthy coating sessions. The scoop coater comes complete with snap on injection molded end caps, as well as a full top snap on dust cover.

Item No.	Specs
NGSG14	14"
NGSG16	16"
NGSG18	18"
NGSG20	20"

## SCREEN MISCELLANEOUS PRODUCTS

### Ambi-Gard Soft Nitrile Glove

Ambi-Gard Soft Nitrile Gloves are medical-grade disposable gloves, latex-free, standard thickness, powder-free, soft nitrile formulation with rolled beaded cuff, textured fingers.

Item No.	Description	Size
8570M	Medium	Box of 100
8570L	Large	Box of 100
8570XL	Extra Large	Box of 100

### Latex Powdered Gloves

Natural rubber latex, medical grade and pre-powdered with a 3 mil thickness.

Item No.	Description	Size
629BP	Medium	Box of 100
649BP	Extra Large	Box of 100

### Lined Nitrile Gloves

Special nitrile formulation contains no silicone or natural rubber proteins. Case-hardened finish resists punctures, snags, cuts and abrasion. Features 13" length, embossed Z-grip and ergonomic design with curved finger fit and tapered wrist. Withstands solvents, oil, fuel, grease, fats, acids, alkalis and alcohol. Ideal for plating, chemical processing, solvent washing and acid etching.

Item No.	Description	Size
G25G9	Size 9	Pair
G25G10	Size 10	Pair
G25G11	Size 11	Pair

### American Niagara Textile Grade Silicone Spray

American Niagara Textile Grade Silicone Spray with a thick viscosity containing heavy duty silicones. Especially formulated to provide superior all-purpose lubrication and protection without the use of ozone depleting chlorinated solvents.

Item No.	Size
ANC	16 oz.

### Spray Bottle

A 32 ounce hand held spray bottle to mist or spray product directly on screen. Chemical resistant nozzle designed to be used with most screen chemical products.

Item No.	Description
IMS821	1 Plastic Spray bottle w/ Nozzle

## SCREEN MISCELLANEOUS PRODUCTS

### Pellons

Saves both time and money with pellow test squares.

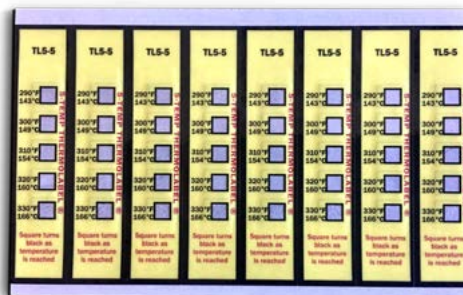

Item No.	Specs	Size
6010SO1618B	Black – 16 x 18	Pack of 100
6000SO1618W	White – 16 x 18	Pack of 100

### Thermolables

Thermolables are a popular way for printers to monitor the temperature of the ink/substrate during the drying/curing process.

Item No.	Description	Size
TL5-4	Thermolabel #4 240-280F	Pack of 16
TL5	Thermolabel #5 290-330F	Pack of 16
TL6	Thermolabel #6 340-380F	Pack of 16

### Translucent Quart & Gallon Containers & Lids

These translucent, semi-opaque, containers make it easy to locate colors on your ink shelves.

Item No.	Description
097334BER	Translucent Gallon Container
097335BER	Translucent Gallon Lid
097330BER	Translucent Quart Container
097333BER	Translucent Quart Lid

## SCREEN MISCELLANEOUS PRODUCTS

### Exposure Calculators

The CCI exposure tool will help you to verify proper resolution and exposure of your stencil. This exposure tool uses neutral density filters that will give you one shot calculation to narrow down your exposure times. The filters give you four different exposure percentages of 70%, 50%, 25%, 10% and fifth area of 100% or 1.0 of normal clear film. These five columns will help you find your proper calculation for correct exposure.

The KIWO ExpoCheck exposure test film uses 9 neutral density filters + 1 clear area. These areas vary in density (or degree of darkness). When exposed to a screen, each filter/density area produces 10 varying degrees of exposure on the screen. These side-by-side exposures can be judged to help determine the exposure time needed to achieve the stencil's highest potential resistance.

Item No.	Description
CCEXPOSURE	CCI Exposure Calculator
KW57701001	Kiwo Exocheck

### Tension Meter

Newman ST Tension Meter are all stainless steel hardened gears, shock-proof industrial grade internal gear movement and all jeweled sapphire bearings, giving you a screen tension meter of exceptional quality that will last longer and produce consistent readings every time.

Item No.	Description
ST1E	Newman ST Meter Model 1E
ST2E	Newman ST Meter Model 2E

Meter Model ST1E
